Window and Door Replacement 101

INFINITY
— BY **MARVIN** 

HERE'S A BRIEF OUTLINE OF WHAT THIS GUIDE COVERS:

Understanding your needs and considerations

PAGE 03

Finding your perfect fit

PAGE 06

Preparing for installation and beyond

PAGE 10

What makes Infinity exceptional?

PAGE 12

We handle the details
so you can focus on the
bigger picture.

With so many options, replacing your windows and patio doors can seem daunting. Infinity by Marvin is focused on streamlining your experience from start to finish — all to help you get the perfect windows for your home. Because replacing your windows and doors is something you should only have to do once.

First things first: Do you need replacement windows or doors?

WINDOWS DON'T WORK PROPERLY

If your windows are difficult to open and close, or don't stay open on their own, it's probably time to consider replacement.

TEMPERATURE CONTROL ISSUES

If you feel drafts around your windows or struggle to maintain a comfortable temperature in your home, your window seals may be failing.

RISING ENERGY COSTS

Unexplained increases in your energy bills could indicate that your windows are poorly sealed. Seal failure lets air escape, causing your HVAC system to work harder to keep the temperature consistent.

NOISE POLLUTION

If outdoor noise is easily heard inside your home, your windows may not be providing proper sound insulation.

OUTDATED STYLE

If your windows are outdated or mismatched, replacing them can enhance your home's curb appeal.

VISIBLE WINDOW WEAR AND TEAR

Signs of damage such as cracked or rotting frames, peeling paint, and warped window sashes indicate that your windows need replacement.

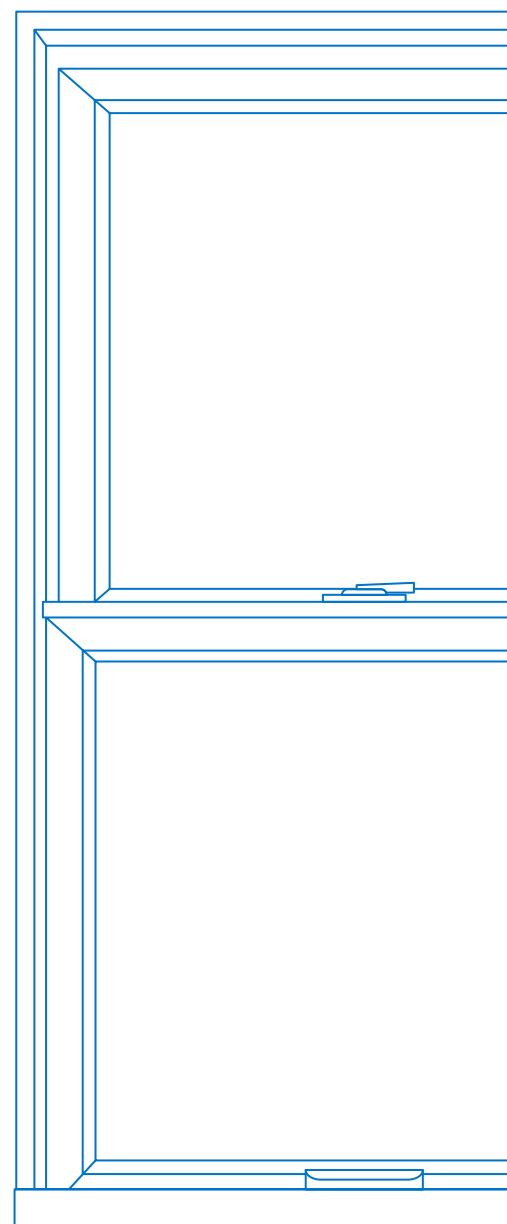

CONDENSATION OR WATER DAMAGE

If you see water between the glass panes, leaks, water stains, or signs of wood rot, it's time to consider new windows.

VISIBLE DAMAGE TO YOUR HOME

If you notice wood rot or other damage in your windows, or if the carpet and furniture around your windows appear faded, it's a clear sign your windows need replacement.

Starting off on the right foot

At Infinity, we believe replacing your windows is an opportunity to enhance your home's character and beauty – inside and out. Here are some essentials to consider:

01

HOW MANY WINDOWS DO YOU NEED TO REPLACE?

The number of windows and/or patio doors you need to replace affects your total project cost. Whether you're replacing one window, updating a room, or upgrading your entire home, talk with an Infinity partner about financing options for your project.

02

WHAT TYPE OF WINDOW DO YOU WANT?

Bring your style to life with windows tailored to your home. From custom shapes and grille patterns to hardware in nine finishes, every detail is yours to choose. Add the beauty of EverWood® interiors for a finish that's as versatile as it is timeless.

03

WHAT IS THE BEST WINDOW MATERIAL FOR YOU?

The foundation of every Infinity by Marvin product is our proprietary Ultrex® material, engineered from millions of fiberglass strands to deliver exceptional performance. With strength unmatched by vinyl or Fibrex®, Ultrex sets a new standard for durability.

NEEDS AND CONSIDERATIONS

Window replacement costs

Depending on the size of your project and any additional features, the cost of replacement windows may vary. Here's a brief listing of some factors that can influence your specific price quote:

LOCATION

Based on your climate, the type of glass your home requires can affect the cost of your project. Your Infinity partner can provide a recommendation based on your needs and requirements.

FEATURES AND OPTIONS

The cost of your project will also vary based on style, color, hardware, and features.

INSTALLATION PROCESS

The cost of your project is determined by the number of windows being replaced including any special considerations. If your current window frame is in decent shape, an insert replacement method might be your solution. However, if your current window frames are showing signs of structural damage, a full-frame replacement is advised.

INSERT REPLACEMENT

FULL-FRAME REPLACEMENT

A man with a beard, wearing a blue polo shirt, is shown from the side, measuring a window frame with a yellow tape measure. He is holding the tape measure with both hands, one near the top and one near the bottom of the frame. The window has light-colored curtains. The background shows a white door with a decorative panel.

FINDING YOUR PERFECT FIT

Design meets performance

Experience the superior performance of Ultrex® fiberglass with Infinity by Marvin window profiles. Choose from Traditional or TriVue™ profiles designed to meet your specific energy efficiency and aesthetic needs, each delivering the durability and beauty that only fiberglass can provide.

TRADITIONAL PROFILE

DOUBLE-PANE GLASS

Infinity's standard glass option features two panes of glass. This energy-efficient design paired with climate-specific glazing options ensures comfort while meeting ENERGY STAR® requirements in select regions.

CLASSIC DESIGN

Our Traditional window profile, made with Ultrex® fiberglass, offers a curved bevel where the sash meets the glass for timeless appeal that complements any home style.

TRIVUE PROFILE¹

TRIPLE-PANE GLASS

Infinity's premium glass option features three panes of glass that enhance comfort in cold climates and offers glazing options that meet ENERGY STAR® requirements in all climate zones.

MODERN DESIGN

Our TriVue window profile, made with Ultrex fiberglass, offers a sleek design with contemporary aesthetics to complement a variety of home styles.

¹ TriVue is not available for patio doors or single hung round top windows.

A photograph of a brown dog with floppy ears sleeping peacefully on a white sofa. The dog's head is resting on a grey patterned pillow. The background shows a living room with a lamp, a framed picture, and a window with blinds.

INSTALLATION AND BEYOND

Planning for the big day

PROTECT YOUR HOME

Plan to know who will be home when the installation team arrives to ensure children and pets are safe. Your Infinity consultant will inform you of their process prior to installation day to give you time to assess what items may need to be moved from the job site. To further protect your home, the installation team will cover floors and nearby furniture with protective materials.

PREPARE YOUR SPACES

Clear access to both the interior and exterior of each window or door and disarm any alarms. You may be asked to clear the work areas by removing curtains, blinds, and nearby furniture.

Installation experts do the heavy lifting

Your installation team will arrive at their scheduled time and keep you updated with plans and progress.

01

REMOVE AND DISPOSE OF YOUR OLD WINDOWS

The installation team will take care of removing and disposing of old windows and patio doors, following local regulations for materials such as glass, metal, and wood to ensure an environmentally responsible process. After disposal, the team will prepare the openings and install the new windows using the chosen installation method.

02

ENSURE A SEAMLESS INSTALLATION

The new windows are inserted, secured, fastened, and the required insulation and flashing is applied. Finally, any necessary trim, casing, and hardware will be added for a finished look.

03

PERFORM A FINAL WALK-THROUGH

Once installation is complete and work areas are clean, your consultant will typically perform a final walk-through. They will ensure everything is correctly finished, demonstrate the operation and maintenance of particular products, and address any outstanding questions.

What makes Infinity exceptional?

We harness the strength of
Ultrex[®] fiberglass to create
beautiful windows and doors
that are *Built for life[®]*.

We back your purchase with an incredible warranty for ultimate peace of mind. Because some decisions — like replacing your windows — should only be made once.”

DAN MARVIN, PRESIDENT

Infinity streamlines your entire window and door replacement experience.

AN INFINITY CONSULTANT WILL HELP YOU:

ASSESS YOUR CURRENT WINDOWS AND PATIO DOORS

Your design consultant will evaluate your current windows for moisture issues, water damage, rot, or structural concerns. They'll also note any energy efficiency or functional concerns, like sticking or failure to stay open.

SELECT YOUR PREFERRED OPTIONS

From window styles and profiles to performance glass and hardware finishes, your consultant will walk you through all the options to transform the way your windows look and operate.

TAKE MEASUREMENTS

A technician will visit your home to measure openings, accounting for variances or imperfections. Measurements are sent to the factory where your windows and patio doors will be built to your specifications.

DECIDE ON AN INSTALLATION METHOD

Depending on the condition of your existing windows and your dream design, they will determine if it's a complete redesign with a full-frame replacement or a simpler one-for-one insert replacement.

UNDERSTAND REPLACEMENT COSTS

There is no one-size-fits-all when it comes to window replacement. Your consultant will help you price out your replacement project and understand how to work within your budget.

PLAN AN INSTALLATION TIMELINE

Depending on the size and scope of your project, installation could take a few hours to days. Your consultant will give you a detailed timing estimate when you're ready to order your Infinity products.

OUR SUPPORT

Long-term peace of mind

While Infinity products are *Built for life*®, we proudly offer a Limited Lifetime Warranty to give you peace of mind. It's our pledge to you that we will stand behind our products for as long as you own your home.

WARRANTY

Life happens. That's why it's essential to examine the warranty on any replacement project before you complete your purchase.

Infinity by Marvin offers a Limited Lifetime Warranty. For full details, visit infinitywindows.com/warranty.

CUSTOMER SERVICE

It's perfectly normal to have questions long after your windows have been installed. Whenever you have questions, you should get quick and clear answers. Infinity selects our local partners based on their customer service experience, so you can be sure they'll be there when you need them.

Ready to get started?
